Comments: "This year marks our 48th year in business and I am pleased to have both my sons, Greg and Patrick, working with me. We have chosen to remain a relatively small, family-run business which allows us to provide our clients with the personal attention and time that is needed to truly make their building and home improvement experience an enjoyable one. Being able to take the time to go over our client's specific project plans and answer all their questions is very important to us. The majority of our business is done in Central Massachusetts and is generally on a referral basis from other satisfied clients.

We would like to take this opportunity to thank our past and current clients for their loyalty and trust in Sarkisian Builders."

Goals: To provide our clients with quality, professionalism, and leadership in the design and execution of building, remodeling, and home improvement construction
